ADRIEN

GIGNOUX

INDUSTRIAL DESIGN & PHYSICAL INTERACTION

ENSCI student · Six-month internship

February–July 2027 · Open to relocation

I design expressive objects and working interactions, combining form, electronics and hands-on prototyping.

SELECTED PROJECTS

Lovelyboard

Connected objects · 2026

Designed PCB, firmware and enclosure. Coordinated fabrication with external suppliers and engineering review. Built and distributed 12 devices, now in use.

KNOBS

Physical interfaces · 2024

Designed and built three working wireless MIDI controllers, from CAD and C++ to electronics integration, fabrication and finishing.

EXPERIENCE

empote · Co-founder 2026–present

Early-stage robotics venture.

BomBom Manufacturing · Founder 2023–present

Design and prototyping service for designers and small brands.

Freelance · Industrial designer 2023–present

Desktop lamp development, prototyping and CAM programming.

EDUCATION

ENSCI–Les Ateliers

Industrial design
Expected graduation 2028

Tongji University

Exchange semester · Shanghai

University of Versailles

Mathematics & Physics studies
2019–2021

SKILLS

CAD & fabrication

Rhino · Fusion 360
CAM · 3D printing

Electronics & interaction

PCB design · C++ · Firmware
Physical prototyping

Visual communication

KeyShot · Photoshop
Premiere Pro · After Effects

LANGUAGES

French · Native
English · Fluent
Spanish · Intermediate
